

Health and Safety Policy

General Statement of Policy

The Company recognises the importance of managing Health and Safety relating to all its operations and has adopted the following as its general policy in this regard:

The Company intends to take all reasonably practicable measures to provide a safe and healthy working environment by:

1. Providing adequate information, instruction, training and supervision to all its employees to ensure the safety of employees, visitors, the public and any property, plant and equipment.
2. Complying with all statutory requirements placed upon it regarding health and safety, including relevant regulations and codes of practice.
3. Endeavouring to ensure that all materials and substances are safely handled and that personal protective equipment will be provided where required.
4. Consulting with employees on safety matters by means of a committee, representatives being appointed to ensure that all interests are adequately represented.
5. Endeavouring to provide a healthy working environment, including heating, lighting, ventilation and toilet facilities, and ensuring that there is adequate First Aid cover in the event of accidents or sudden illness.
6. Conducting such risk assessments as may be necessary, using the information gained as the basis for developing specific safe practices and procedures.
7. Developing in-house competence in some specific areas of health & safety management and seeking expert advice and assistance from elsewhere whenever it is required.
